DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17, drawn to a device and method for interpreting an immunoassay, classified in class 435, subclass 7.1.
- II. Claims 18-21, drawn to a device and method for interpreting an agglutination test, classified in class 435, subclass 287.1.
- III. Claims 22-26, drawn to a swab for taking a sample, classified in class 436, subclass 174.
- IV. Claims 27-30, drawn to a swab for taking a sample, classified in class 435, subclass 4.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions I-IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, Groups I and II have different functions. Group I is drawn to a device and method for interpreting an immunoassay, which is distinct from the device and method of Group II, which is drawn to interpreting an agglutination test. In addition, Groups III and IV differ from Groups I and II because they are drawn to swabs for taking sample, which are not required of either Groups I and II. Groups III and IV are further distinct from one another because the elongate spike of Group III is not required of Group IV.
- 3. Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification and recognized divergent

subject matter, and the search required for one group is not required of the others, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kartic Padmanabhan whose telephone number is 703-305-0509. The examiner can normally be reached on M-F (8:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Long Le can be reached on 703-305-3399. The fax phone numbers for the organization where this application or proceeding is assigned are 703-746-5207 for regular communications and 703-305-3014 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0196.
